

## **Door: Heavy Traffic K190**

### **Applications:**

Designed especially for doors that are in constant use, the K190 door in aluminium is perfectly at home in shops, airports, hospitals, schools and apartment buildings.

### **Design:**

Welded aluminium door

Firm door integrated into the high crosspiece

### **Performance:**

Window parts Argon-welded.

Lifelong guarantee for window parts.

The K190 door has successfully passed the toughest tests:

- over 2 million cycles of opening and closing
- constraints of warping and torsion

Anti-vandalism design

Version for public passages with limited doorstep to allow people with reduced mobility to pass through.

Ideal for non-residential or multiple-occupancy residences, new or refurbishing.

13 models available that can be adapted to all configurations.
