

THERMAL INTELLIGENCE JUST GOT BRIGHTER

Introducing the Newest OptiQ™ Ultra Thermal Windows from Kawneer

The industry's smartest window keeps getting smarter. The new AA®5450 single and double hung windows – the latest in the OptiQ™ Ultra Thermal Window series – continue to set the standard for brilliance in window design. The result of an

ongoing partnership with the U.S. Department of Energy, the AA5450 series window integrates innovative features to deliver the highest levels of thermal performance. **With the AA5450 series window, thermal intelligence just got brighter.**
